

BASIC SHELTER PRICES

Length	12 ft. Diameter	10 ft. Diameter	9 ft. Diameter	8 ft. Diameter
50 ft.	\$23,160	\$16,690	\$15,170	\$13,270
40 ft.	\$20,460	\$14,920	\$13,580	\$11,980
32 ft.	\$18,299	\$13,499	\$12,350	\$11,100

Basic Shelters consist of the same shell, end plates and entrances as regular shelters. They are offered for those wishing to finish the shelter on their own site. We feel very strongly about the inclusion of a sealant type gasket in the seams of the structure.

The Basic Shelter include the following:

- End plates consisting of 3/8 inch steel plate welded in place.
- Shelter bodies in 8, 9 and 10 ft. diameters manufactured from 12-gauge corrugated steel; twelve-foot diameter shelters manufactured from 10-gauge corrugated steel. All shelters include sealant in seams.
- All entrances manufactured from 16-gauge corrugated steel.
- Four-foot diameter entrance stub, welded in place on end plate. Nine-foot elbow (9 x 9) with riser to grade (based on 8 to 12 feet of cover). Two, annular 48" bands with gaskets.
- Three-foot diameter emergency exit stub, welded in place on opposite end plate. Nine-foot elbow with riser to grade (based on 8 to 12 feet of cover). Two, annular 36" diameter bands with gaskets.

Option for zinc rich coating on end plates (inside and outside):

- 12 ft. Diameter \$705
- 10 ft. Diameter \$490
- 9 ft. Diameter \$398
- 8 ft. Diameter \$310
